INTRODUCTORY.

In introducing a volume like this Index, one needs to speak of the documents indexed and the purpose to be accomplished by indexing them.

I. From the formation of the General Assembly, in 1788, there were published annually, in pamphlet form, "Extracts from the Minutes." The extracts were not very full. Only once in three or four years did they contain complete lists of the ministers of the Church.

Brief as these early "extract" minutes were, they became, as the years went by, very scarce and difficult to obtain. In view of this, the Presbyterian Board of Publication issued successively the volumes which are set down in their *Descriptive Catalogue* as No. 219 and No. 393. No. 219 is entitled *Minutes of the General Assembly from 1789 to 1820.* The full title of No. 393, with the note appended, in the *Descriptive Catalogue*, is as follows:

"*Minutes of the General Assembly of the Presbyterian Church in the United States from A. D. 1821 to A. D. 1835, inclusive. Prepared by the Editor of the Board.*

"The original edition of these Minutes having been exhausted, and no second edition published, they have for many years been quite inaccessible to the great body of ministers and people. Hence the call for this new edition, which contains the Minutes in full, with a condensed summary of the voluminous statistical tables of the original Minutes. This volume will be valuable as a work of reference, and as exhibiting a consecutive history of the proceedings of our highest judicatory."

These volumes—and especially the first of them—are not merely the reprinting of the extracts which had previously been published, but include much additional matter, and, in particular, many reports made by Presbyteries to the Assembly, including lists of the names of the ministers who then composed those Presbyteries.

These two volumes of republished Minutes, with the sets of Minutes published annually, contain the complete public record of the Presbyterian Church from 1789. To cover the record previous to that time, the Board have published their volume No. 73, which is thus described in their catalogue:

"*Records of the Presbyterian Church in the United States of America. Embracing the Minutes of the Presbytery of Philadelphia from A. D. 1706 to 1716; Minutes of the Synod of Philadelphia from A. D. 1717 to 1758; Minutes of the Synod of New York from A. D. 1745 to 1758; Minutes of the Synod of New York and Philadelphia from A. D. 1758 to 1788. Prepared by the Rev. Wm. M. Engles, D. D.*"

THE PRESENT INDEX contains, in a single alphabet—

1. All names of ministers found in the "Records" from 1706 to the organization of the General Assembly.

2. The names found in the lists of ministers under the care of the General Assembly given in the Minutes of the Assembly as originally published, from 1789 to 1881.

3. Those found in the lists of Home Missionary appointments, as published in the Minutes, to 1837.

4. Those found in the reports of membership made to the General Assembly by the Presbyteries, from 1789 to the time when the lists of ministers began to be published annually, as contained in the two volumes of *Minutes of the General Assembly*, Nos. 219 and 393 of the publications of the Board. The references to these volumes are *distinguished by being italicized.*

5. Those found in the necrological lists and reports from 1789. Up to the year 1851 in the "New School" branch of the Church, and up to 1854 in the "Old School" branch, the annual Minutes of the General Assembly had no alphabetical indexes. For the years *since* those dates, the present index is taken from the alphabetical indexes to the Minutes. *For the previous years,* it is made from the body of the Minutes.

The reference, in each case, is to the year and page of the Minutes. For the few persons who have the Minutes at their command, in bound volumes, references to the *volume* and page would have had some advantages. But it would have been impossible to make a uniform index by volumes, because of the nature of the materials. Moreover, the index, in its present form, contains a vast amount of information which would not be contained in a mere reference to volume and page.

II. The utility of such a work as this Index may be illustrated by a brief sketch of the circumstances which led to its preparation.

For ten years past it has been the duty of the author of this Preface to prepare annually an obituary paper in remembrance of such of the alumni of the Auburn Theological Seminary as had died during the year. More recently he has been called upon to prepare a new General Catalogue of the Seminary. In that work he was often under the necessity of consulting the Minutes of the General Assembly, in order to trace the history of men who were there mentioned. As is stated above, many of these Minutes had no alphabetical indexes. In the absence of such indexes, it was an exceedingly laborious task to find the names of men, or to use the Minutes with any thoroughness for his purpose. It seemed

to him that merely for his own use it would be a saving of labor to have an index of those numbers of the Minutes prepared, under a single alphabet. He therefore entered upon the preparation of such an Index, with the assistance of his sister, upon whom the labor principally devolved.

It then occurred to him that there were many others to whom such a work would be of value if it were published, and he opened correspondence on the subject with the Board of Publication, and also with the Stated Clerk of the General Assembly. The matter was brought before the General Assembly of 1880. It was referred to the Committee on Publications (see Minutes, p. 19), and the recommendation made in regard to it by that committee in their report was adopted:

"A communication, addressed to the Stated Clerk of the General Assembly by Professor Willis J. Beecher, of Auburn Theological Seminary, was laid before your Committee. In the communication the writer says: 'You are aware that no alphabetical index to the list of ministers given in our Assembly Minutes was published previous to the New School Minutes of 1851, and the Old School Minutes of 1854. For my own use, in making a fresh Historical Catalogue of Auburn, I have had an alphabetical list made of all the names, in the Presbyterial lists and in the necrological lists of all Minutes, previous to those dates, with the year and the page where each name occurs. It seems to me that the General Assembly, or its Publication Board, ought to print just such a list as mine. All persons who have statistics to make out would be glad to get it. For lack of it, the information contained in the early Minutes of the Assembly as to the history of our ministers is unavailable. Now, if any responsible parties care to publish my Index, I will have it completed and revised, and will furnish a copy for the printer, for a sum that shall be fairly equivalent to what it costs me in cash, charging nothing for my own time and trouble in the matter.' Your Committee recommend that the subject be referred to the Board, with the direction to print the list as suggested, if on full investigation it be deemed advisable."

Further correspondence with the Board of Publication resulted in the undertaking of the present work, so *immensely more extensive* than that originally proposed. The utility of such an Index to the comparatively few persons who have sets of the Minutes at hand, and have occasion to consult them, is obvious. But it can be utilized by others than these. In looking up the history of a man it will often be sufficient for the purpose in hand to ascertain whether his name was in the published lists of the Presbyterian Church; and if it was, then in what years. To these questions the present volume affords a complete answer.

If one has occasion to go where sets of Minutes are, in order to consult them in regard to men concerning whom he needs information, or to consult such sets by correspondence, the present volume will enable him to do the preliminary work beforehand.

The spelling of the names in the Index is, of course, that of the Minutes from which they are taken. Instances in which a name is differently spelled in different places, or is misspelled, are sometimes briefly indicated.

No work of this kind is altogether free from errors. From considerable use of a portion of this Index in manuscript, I am confident that the percentage of mistakes in it is much smaller than in most similar works. The few errors I have found have nearly all proved to be in the original making up of the lists or indexes, and not in the work of the present compilers.

Let us hope that this volume will prove to be a contribution of some value toward preserving the history of that noble succession of men, the ministry of the Presbyterian Church.

WILLIS J. BEECHER.
