PREFATORY NOTE

The present edition of the General Catalogue of officers, graduates and honorary graduates of Princeton University covers the period from the granting of the first charter of the College of New Jersey in 1746, to the end of the academic year 1905-06.

The earliest known — and probably the first — edition of the General Catalogue was issued in 1770; the second appeared in 1773, and the third in 1786. It is believed that, owing to the straitened circumstances of the college during the period of the Revolutionary War, no General Catalogue was issued between 1773 and 1786. From 1786, however, until and including 1886, the catalogue with but few exceptions appeared triennially. The next edition after that of 1886 was brought out in 1896 and was the first to appear in English, the others having been in Latin. No edition has been published since 1896. The catalogues of 1770 and 1773 are broadsides; that of 1786 and of all subsequent dates are in octavo.

The changes in method, differentiating the present volume from its predecessors, need comment:

(1) There being no adequate reason for distinguishing clergymen from laymen, the use of italics to designate the former has been discarded. The use of capitals to distinguish prominent public officers has likewise been discontinued.

(2) An attempt has been made to identify the academic and public career of every teaching and executive officer of the University since 1746. Data concerning officers who hold a Princeton degree will be found under the date of that degree. The date will be obtained by consulting the Index. In the case of an officer holding more than one Princeton degree, his main entry will be found under the date of his first Princeton degree. Data concerning an officer who holds no Princeton degree will be found where his name first appears in the Catalogue and a reference back to this first appearance is given at every succeeding occurrence of his name. The pages on which his name appears will be found by consulting the Index.

(3) Colleges and universities are given under their present names, e. g. "King's College" as "Columbia," "Centre College" as "Central" and the "Columbian University" as "George Washington." In the rare cases where two colleges, e. g. Jefferson College and Washington College, have been consolidated, the present name is used, "Washington & Jefferson." If either of such consolidating institutions is mentioned as of a date prior to the union, the present name is used with a distinguishing initial, e. g. "Washington & Jefferson (J)" = Jefferson College, or "Franklin & Marshall (F)" = Franklin College.

(4) Members of the American Philosophical Society are designated by the initials M. A. P. S., thus following the practice of the Society. The abbreviations for the other learned societies are the customary ones.

PREFATORY NOTE

(5) An "em" dash following a date, e. g. "1900—" signifies that the individual concerned went into office in 1900, and was still in office in 1906. An "en" dash and "quad" space following a date, e. g. "1790- ," or a "quad" space followed by an "en" dash and date, e. g. " -1901," signifies that the "quad" space should be filled by a date not known to the editor.

(6) Names in square brackets have been dropped by their owners, but are retained in this catalogue for identification.

(7) If a member of a class did not obtain his degree with his class but received it subsequently, the phrase "Degree conferred," followed by the date, has been used.

(8) The upper and lower houses of state legislatures have been cited as Senate and Assembly respectively, regardless of local official appellations.

(9) Except in the cases of D.D., LL.D. and D.C.L., honorary degrees are distinguished by the abbreviation "hon." following the date of the degree.

(10) Up to and including 1892 the Master's degree was customarily conferred on a graduate three years after graduation, if he had been engaged in literary or professional study. Since 1892 it has been obtainable only on examination, or by thesis, or as an honorary degree. In crediting graduates with the Master's degree, or in omitting it from their entries in this catalogue despite entries in former editions, the Minutes of the Trustees of the University have, except in cases of obvious error, been followed; and the date of the granting of the degree has in every case been added.

(11) The Index contains the names of officers as well as of graduates and honorary graduates.

Dates preceded by an asterisk mean, as usual, dates of death. Asterisks without dates indicate deaths of which the dates are not known to the editor.

For degrees and appointments, the Minutes of the Trustees and the Annual Catalogues of Princeton University have been examined, and the former invariably followed except in cases of obvious error. The sources from which the biographical material has been obtained are chiefly (1) the circulars filled out by graduates and officers, (2) class and college records in the Princeton Collection of the University Library, (3) the General Catalogues and year books of universities, colleges, seminaries, fraternities and other societies, and (4) correspondence with state and municipal authorities and with friends and relatives of deceased or uncommunicative members of the University. Besides these sources, constant use has been made of general biographical reference books, local histories, and federal, state and municipal publications.

Inasmuch as Princeton, until the Civil War, drew so largely from the South, a special effort has been made in this catalogue to secure the military records of graduates who served in the Confederate Army and Government during that conflict. If the results are not so satisfactory as might be wished, it is largely because the Confederate records are not yet adequately available, and because of the difficulty of obtaining the required data through private channels.

Acknowledgments are due to private individuals and to academic, federal, state and municipal officials throughout the country for their courteous responses to frequent requests for information. Particular thanks are due to the Rev. Joseph

PREFATORY NOTE

H. Dulles (A. B. 1873), Librarian of Princeton Seminary, for data concerning Princetonians connected with the Seminary; to William Nelson, Esq. (A. M. 1896 hon.), Corresponding Secretary of the New Jersey Historical Society, for data concerning New Jersey alumni; to Dr. Ewing Jordan, Editor of the General Catalogue of the University of Pennsylvania, for repeated and invaluable help in the cases of Princetonians affiliated in one way or another with the University of Pennsylvania; and to the Hon. Charles J. DuBuisson of Yazoo City, Miss., a non-graduate member of the Class of 1862, for considerable effort in tracing Princeton graduates who served in the Confederate Army. The chief obligation of the editor, however, is to the zeal and interest of General Alfred A. Woodhull (A. B. 1856), whose intimacy with Princeton's history, whose wide acquaintance with Princeton graduates and whose distinguished associations have made him a mine of information, suggestion and material help which it is a pleasure to acknowledge. The tedious clerical labor involved in compiling this Catalogue fell chiefly on Mr. Louis J. Rouse (A. B. 1908), whose faithful and accurate work has immeasurably lightened the editorial task. Finally, appreciation should be expressed for the willing and resourceful co-operation of Mr. Charles H. Clarke, manager of the John C. Winston Co., in the typographical make-up of the volume.

This edition of the General Catalogue in a measure blazes the trail for subsequent and completer editions; and as most of the dated biographical matter here presented has been brought together for the first time from printed and manuscript records, many of which are conflicting, it is feared that errors of commission and omission will not be lacking. Corrections and additions will always be gladly received, but should be accompanied by verificative authorities. They may be sent to Mr. Charles W. McAlpin, Secretary of the University, from whom also copies of the Catalogue may be obtained.

VARNUM LANSING COLLINS.

CHARLES W. McALPIN,
SECRETARY OF PRINCETON UNIVERSITY.
