Notes for the Teacher.

Lessons 1 to 4 give all the words contained in the First Reader. These are intended for spelling exercises.

Lessons 5 to 12 contain words having diphthongs.

Lessons 13 to 17 contain words in which the first syllable begins with a vowel.

Lessons 18 to 23 contain words which begin with n or m followed by a consonant.

Lessons 24 to 27 contain examples of miscellaneous words of more than three syllable.

We believe it will be helpful to the pupil to have his attention called to these changes as he passes from one set of lessons to the other.

W. M. Morrison.
