Mr Stutrus having in charge
a person, Miss McDonald,

seduced a Belgian Doctor,
to go to Scotland on 28th - Dr
D. appears here all at once
from Calif^a, she hesitates about
going: strange infatuation, for he
is said to be a brute of a man.

Bryan Linnon 341 Ez. 18.32,
my view of the meaning of death
was not as clear before as it is
now; it seems to refer to after
death very clearly.

Have read of late some parts
of the Age of Reason - There is force
in some of the difficulties, but there
is so much unfairness, as to do away
with app.^{er} of candor entirely.

Friday. Mar. 21. 1851.

Busy all day on papers.

Mr Rowe had not time to
look over price current, &c.
had to go to Raritan point.

Mr Foster will do it to mor.

Met with Struthers & see Cura

Mr Mattison was to come
and take tea with us but did
not - strange affected & having
eaten Crabs, itching of skin, ful-
murs of head etc.

Many papers from Calif.
Marriage to morrow.

Lords Day Mar 23. 1851.

pleas in the death' - at 1-50. I felt
in earnest. Good attention.

Few residents.

After Service Capt. Swain met
me on stairs, asked me to the printer
of a change in his advertisement - I
thot it best to do it.

the word of God effectual!

Am. Capt. died of Cholera

Mon. Mar 26. 1851.

For two days busy about letters to U.S.

Mon. Ev. Riddings of D^r Lacout and Miss Macdonald - lived tog. for several years - three Ch^m, two Miss Lydney St, Concepcion St. She intell^g; well favor^d educated. Very thankful both of them.

Mr Claborn told me on Monday, something puzzled on his mind, & did not hear to tell me. This morn^g did not come to breakfast - found him at room at 3 p.m.; drinking; took Keys, wished to kill himself; not sleep for 2 nights. He not tell me all - said he c^d not dare to - Taylor of Arica \$20, Reynolds \$5. Amone I fear. Inspect^d at Taylor's money from last letter rec^d. Do not think it

will at all ans. to retain or
have anything to do with him.

Ask Mr Rowe today to lend
me a lady's saddle, he at once
said he wd and a horse also -
for Leanne & me.

Mr L. W. and Mr Tobbs here
on the Evng. Wm Blane promised
him 6 ounces for Chapel - now
declines.

Thursd. Mar 27. 1851.

Wm did not come down - found
him at the room. Poured what he
had done - taken \$50 in all. He
does not excuse his conduct.

Says has not a friend in Val^o.

I find he has spent 4 ounces &
12 dolls of money of Mr Gow -
Says evil women have taken

it from him when in liquor. I
cannot see that he has spent it
all. But my money he has coll-
ect from time to time and used it.
I have spoken plainly with him
telling him that he makes his
weakness, fate etc excuses.

Poor youth my heart feels
sad, grieved and disappoint^d to
see his condition: but I am
afraid to have any thing to do with
him further. I w^d not fail to
just for him as a fellow sin-
ner; and one who have felt
the thralldom of temptation —
but nothing w^d be safe now in
his care: and it w^d compromise
me to have him about me.

Lord's Day - Mar. 30. 1851.

Morning 6¹/₂ fast at 7¹/₂ - blk tea, cold mutton, eggs & toast.

Had no new sermon written - one ^{yr} finished - extemp. 343 Isa. 64. 6 filthy rags - succeed tolerably. Few audience, several absent. Mason & Livingstone, who are Ch. members they say.

Evening Luke 12. 9, without notes - preached from same 3 yrs ago. 30 persons present - good attention from almost all.

No light of ^{Am} all the day. Two or three ship masters, and other seamen were present.

My mind has been more cheerful than usual. All day without any notes. My lungs are severe and harsh in tone. Looking at our Lord's quotation of Zachariah "I

will unite the Shupha & the Shup
Shalluscah - This has made my
views more distinct about
the O.S. - a clear endorsement of the
Sav. Acc. he says yag yag yag yag
not accommod. but ref. to him.

It is a cause of sorrow to
me that so few come to hear the
gospel - and fewer still obey it.
May God bestow his gift on me,
and on my hearers.

Wren. April 2nd. 1851.

This day began with a fearful earthquake - 19 minutes long. 7 - we were sleeping. The house shook & cracked - we both flew to the garden - the shaking continued after we got to the central walk - tiles were falling and Dostine. seemed at hand from the iris. power. We were in night dress and barefoot - no time to put on slippers or anything else.

Ran to room after a while - found rooms sadly disfigured - paper torn - mantel cover all things - nice walls look'd sad - all in a few moments.

We dashed up, and began to sweep at once. The neighbors suffered a good deal - houses nearly all injured - Willis's chimney fallen in, Myman's too, fell on the

bed as Mrs N. had left it - Garland
ago cost him 5000 to repair house
and furniture - I. N. H⁵ house is
greatly shatt^d - Wmshandy a flaw
in it - Mr Potter fight^g greatly -
house of Dr. Ladys School falling
in - some houses down quite -
some killed report says - East. H.
much defaced - streets appear
most desolate, full of people,
anxious in all faces near.

Earth continues shaking at inter-
vals of 15 ms. all day thro'.

Clacks stop^d. Mr Wilmann
did not learn his bed he says:
Don Valdes did his.

Grannie is so glad I did not
go with Mr Campbell to Stgo: so
am I.

I go to bed in trepidation.

Now is a fact under the Div. Control;
It shows that there is no God, or
else he is Malignant and careless
of his creations, or else He shows
his displ. at human sins in this as
in other modes of distress.

If I take the 1st view I am
cut loose from every bond, and
thrown into immense difficulties:
If I take the 2nd my heart must
rise in hate to such a God:
While the third subdues my
mind and elevates my thoughts to
Heaven.

After heavy shock there were

There have been still others not
noted - but I think I have felt
no others. The people run out

into the sto - all are on the alert of anxiety. It is painful to see the fear of the people - knowing at same time their real danger of the most awful calamity.

Sermonal were at the prayer meeting - My peace gives I unto you - peace with God tho sinners; with men & angels good for evil; & in all dangers, deliverance on better side. Shock just as we left the room; another as we started getting into gig to go, and another on our way home - but none during the service. I had a feeling, lest to have meeting short, lest shock sh^d come.

I commend my wife and house & self into Gods hands: and try to beth sitting ready to lay my body life at his disposal

This has been the last to day.

The saddle was very clear at
3, clouds rose soon after, the
weather changed, and since the
change from clear to cloudy, the
earth is apparently at rest.

Mr. Wetmann says it is no-
ticed that after an earthquake a
rain follows - that so in Peru
in Tacna and Lima - that so

Mr. Normald told him too.

Maria says the people told her
they saw a black bow in the
Heavens on Tuesd. night.

Mrs Byas said too to us that she
saw a cloud at North, dark &
heavy, and told her servant
we sh^d have an E'quake, that
she had never known it fail.
But Mr W^m told me the saddle
had been clear several days.

Mr Louten Cat^d today - polite,
invited us on board to live if any-
ions ab^t E'quake. This matter has
been the theme of great conversation
with nearly every one for 3 days.

Miss Cooper & Capt. Swain call
at my rooms. I call at Mr
W^m. W^m's wife & Aug. had not been
in bed for two nights - their fear

has been dreadful. I am glad
I have not been with them.

I fear rain & my roof is so
much broken that it will
cause great damage to the
house and furniture.

Our pretty dwelling is sadly
disfigured.

Went up and placed some of the
tiles myself; but there were too
many for me.

Sat. Apr 5. 1851.

At 11 p.m. began to rain last
night. Mr. Wilmann had^d that
it^d be the end of the 2^d quarter. At
1.51 there was a perceptible shock,
followed by another in 10 minutes.
At 5^o rained smartly - roof leaked
in various parts. Got up - found it

Came into nearly every room, the
liver parlor and study. Spent
almost whole day in trying to pro-
vide agst the leaks. Placed all sorts
of vessels - and covered floors with
clothes as far as poss.

Found roof of new dining room
beginning to settle and end wall to
lean out - Lyon saw it - advised
removal of furniture - had it taken
out and placed where it'd be
the day.

At night concluded to send a
bed up to office and sleep there.
A shock occurred p.m. 5.15 abt.
Maria greatly alarmed.

We left on Mon. early so pretty
with sad emotions - I knew our
helpless children & the elements as
Frank says. This has been a day & a

much of anxiety - but God's hand
is lighter than our faults. I re-
sist to lay this to heart now, that
I deserve this & much more.

And I am thankful that we
have a safe place of refuge.

This morning there was light and
thunder.

Among minor annoyances the
key of Jo's wardrobe was broken
off - difficult to extract it had to
be cut off the lock.

Made up bed and two Chapel
benches in my office.

The night is clear, tho damp and
quite cool - I find there are some clouds 10 p.m.
Have had no heart, and no time
to prepare new discourses; select
one for the a.m.

A slight shower about 12 m.n.

Lord's Day. Apr. 6. 1851.

Waked with head ache, did not
rise till 7 $\frac{1}{2}$. Went home to breakfast
- not to church.

About 55 persons in the a.m.;
Col. 1.20, No 290 Hain made peace.

At Communion about 14 persons;
I spoke of it being a feast not
a period of sad thro't.

Went down in p. m. to dine.

Mrs. Pickin wished us to go and stay
with them; but shall remain where
we are.

Evening - 30 persons - Ba 43.25

on them who come here, and
on me.

Clear, cool, beautiful day.

went up town to sleep. Tea at absops.

Tuesd. 8.51

Still moving. Mr S. W. Lynd us

well - noise with yard - breakfast

Made house today with
Laurie again.

Wed. 9.

Summit coming, hard at work
- chapel in all disorder -
kind, books moved etc.

Grain beat out at night.
No tea. Rec^d dinner fr. North
Hotel, at our room.

Thursd. 10. 1887.

Put in notice of furniture
for sale, several calls - sold
looking glass. Off^r Andersson 10%
on mattress sold at auction -
desk, tables, chairs, spec. Case.
He sold low, & I came,
with me to go and bid them up.
North Hotel ask^d 1.4 for the ~~two~~
dinners for two days. Andersson's band
can be had 8 trials each day. I
think can do no better.

Went at prayer meeting.
Byers, Fromont, Tucker & us.

Sat. 12 April. 1851

This week has been one of Confusion,
hard work and unsettled mind. I am con-
scious of error in not having been sys-
tematic in fam. & private worship. At
times both omitted, & which means the
day has passed incomplete. My mind
has not fed much on the word of
God either. It is easier to hold a
principle than to practice on it.

Have not written a discourse
since the Sabbath. now nearly two
weeks. Under the Circ. do
not blame me, but wish I had
done more.

Advertise some of my sermons
for sale, many call to see it,
but little sold.

Yerkes began taking meals at
the hotel. Breakfast quiet; dinner

o how noisy! We have no tea -
wish much we might have the use
of a kitchen, and have our supper
meals prepared for us.

Collected money to day for Mrs
Byers, 50¢ interest.

We have left our Sung house,
but we feel thankful to our Father
in H. that we have any house to re-
treat to, and any means for our
support.

I hope the 2nd bath may prove
a day of recovery of my sound
body things; and of the presence
of the Spirit of God among us all.

Sund's Day, Apr. 13. 1851.

Had a ch in a.m. did

ages going a way, showed his
vision of Valens, spoke of
the organ, but agreed with the
rec. Will come and bring his
letter.

Mr Livingston not out to
day, nor mrs, nor Mason.

Mr Grogan absent all day -
Mrs G. in the Eng - probably

in trouble with that vessel.
Gramin thinks not right to be
thus at work on Sunday: but
it seems like a case of a
~~man's~~ house in danger from fire.

Now that I am in a
more settled again I hope
to write new discourses - for
it is anything but pleas.^g to
use old ones.

A slight shock abt 5^{1/2} a.m.
Another long continued, abt 3 p.m.
Gramin was composed - it lasted at
least 12 seconds.

I draw & feel that we are in
the Lord's hands; and if he wishes
us to die, to wish so too.

And as Mr Haskell went down

to sail at one o'clock. He added
that Captains had to sail even on
the Sabbath for their owners & the
capt had been in Church, of matter
- Preset - went away to find him,
told him he w^d come soon. All
this was falsehood as Mr Haskells
words showed. Finding that I heard
thus he turned to me at head stairs,
saying thus sir he knows me, and
that I am going on board at one o'clock
He then said if I w^d give him mo-
ney for the boat that w^d be enough
and I sh^d hear no more of him
As Jaur says it was very un-
wise in him to give him last evening

And further it was unwise in
not stopping Mr Hasbull and
confronting his false pretences
on the spot to his face; the
truth was I shrinked from
hurting his feelings.

Evening No 348, abt 3 1/2

sire to see the no. of good persons

the pos^t quarter was paid, and if what
the others said we settled it that

Lauris Spanish attain^ts. - said they w^d decide
bef. the end of ^{this} month.

Mrs Nymman wishes to give them the
idea that she will withdraw her Ch^l
bec. of distance to the end that they may
withdraw Mercy. We see that it is
proper for us to be straight forward - I
tell J. if M. is a bad girl tell them
she cannot come; if not let her come
and Mrs N. do as she thinks best.
J. says M. is a girl of good ph^y

and she w^d rather retain her, and
has hope of doing her good.

The little girls, Arguan Ch^y, were
content with us and talk^d away abt
a happy rate.

Reads aloud in Dr Cummings lec-
tures on Apocalypse. Lieut. Moresby
loan^d the vol. So far cannot form
a judg^t as to its interpretation; it has
copiousness and strength of style, a
practical and sound character; but
I hesitate abt some of its positions,
as "the first 6 trials terminate with Fr. Rev.

1st to room, read some in Dr Wetters
introd. to Introduction - He says the O.T.
Sc. sh^d be examined just as all other
writings that have come down to us, and
until we find proof of their Divine origin I
sh^d say so certainly: bec. if a man be
supposed who has never heard of the
Koran, the Shasters on the Bible, until all
these are presented at once, he can exam-
ine them in no other way - But as we find the
fulfillment of the Bible on its disciples, and as
we look at its internal char. we find
evidence of its higher than human origin &
and that undoubted gifts rise to a

more favorable cash of criticism. The
mind thus impressed with its general
high tendency, if a holy mind, will learn
to a favorable judgment on the good and dying
that may be raised within as only others.
Certain unfavorable criticism that is
abstract from this and manual of
holiness in the poss. of the race, will
not find a welcome reception with
any man loving hol. and wishing for
the improvement morally of mankind.

So that while Dr. Nettles' maxim
is the correct one yet it must be
watched and only applied anterior
to that step of criticism wh. looks
at the inward internal.

Mr. Staaf excused as soon as
and sleep tonight he. going to ride
to Casa Blanca to mor. He did not

At home read part of Dr Cummings on Revelation; some of his facts are very remarkable, and some arg^t exceedingly ingenious.

Even, 46 people, many absentees, No 130 without the Mrs. tol. attention.

Mr. Clarke was there.

On the whole I have been gratified with my off hand exertions to day.

O that God w^d stoop to visit us by his Spirit and convert sinners!

sooner - y^{et}. Also Mr Hainland
says he wishes to place 2 girls with
us - I told him of the lower terms.
He doubted if he w^d send them if a
change occurs in the school afterwards,

had told him once he not going away
in this Sta. to Calcutta, he w^d stay about
and raise a number of scholars.

Mr Blomeshy came to see me

American Consul, did not see him. Hear
him & spoken well of.

To day, making up my accts
I find that on the 1st of August
I shall owe abt 150 \$ (apart
from the 1000 due Campbell and 900

due me in Oct. from Bernard). As
at times a new year's sal. begins, and
something may be hoped from the school
also, we may hope to pay Mr C. in Oct.
with those notes and a little added.
I shall be glad to pay my debt.

at declining to do so when asked -
I took it, in ceremony.

Mr Gillies thinks Montt is not a

He came away pleased, having part

Sund's Day. July 27. 1851.

Rose late having head ache.

Good audience, an old disc. on
Prodigal Son - not a poor one,
but its delivery was not to my sat-
isfaction: it rained heavily, had to speak loud
and did so rather hurriedly or without reg-
ularly composed.

Gave notice of Communion next
Sabbath; and that not being well
w^d not preach tonight.

Took nap.

Sketch at 6 a sermon on, 'strived to

stant earnestness.

Alond. Aug. 18. 1851.

A Mrs Rogers, Eng, having applied for aid in getting a situation, from on board Dr. bk Caspar, and being pleas'd with what we see we have taken her into the house, and to give \$17.2 a month. She is to sew, wash and make so useful & act as nurse.

The Captain of the vessel had engaged her to act as nurse for his wife - she says, not being need she has been unduly treated - and has refused to pay her all her due.

I call'd on Dr. Consul on Saturday who I (Cood) he might be made to pay it - and sent him to me.

He had granted app^{ce} - 2^d she was tipsy, insolent etc and refus'd to pay more. I call'd her in, she denied his charges and in turn charg'd him with Cru-

city to him and the crew, esp. to a
boy in whose face had burnt holes
with lighted cigar! This he did
not deny - but I thought the boy was
tipsy too.

He called ag.ⁿ on Sat. I was out.
Wrote him a note stating the
matter; he replied that owing.
owed me owed her 1 pound
still. I waited till this day &
then ask G. G. Halson what to do
By advice I wrote him that as
to her he owed her \$23, as to him
only 10, so wide a discrepancy was
more than I could reconcile; and I
could not urge her to accept so
much below what she was
due - and to mor. go to justice.

Tuesd. Aug. 19. 1851

Paper under way - Carpenter
at work - Mrs Byers calls for
collection of interest

Mrs B's Case - Squilla's he
c^d not decide for want of evide^{ce}
if one asset & other denied. So I
began to fear - but - ab. 3 p.m. a
note came with 18\$ (and the bal. is
cov^d by an order) - He charges me
with wrong & unworthy conduct.

He just tried to pay me with one
pound only & forced her to sign the receipt
of it as the balance of her acct - then
he own^d in his note that he ow^d her
a pound more - then he pays the whole
£ 4.8.8.

Monday means to try and have
the boy's case investigated.

Sat. Aug 23. 1851.

Monesby saw the boy, but
while saying he had been burnt
he said he was in the main well
used - Mrs R. says he was bribed
probably. Have that of writing
Capt. Eldred a tart note in reply
to his rude words - but judge
it will be better to leave him
to his own reflections.

Poor O'Hara call a week
ago, worse than ever - been
to Chiloe in whale, & away
got nothing - gave him food
coat, trousers, boots & horse -
told him to come back at 9 p.m.
to give him place to sleep, & he
w^d but did not. Seen him
since in street - avoid me
as if ashamed.

Morrisby introduced Midshipman
Haight as a pious y^d man.

Lately have read a good deal
in Dr Witt's introdⁿ - the case for
compilation seems strong in ref.
to certain books. I am anxious
to know more of the merits of the
case, tho I hope to be led to truth.
I find a feeling of pain when
doubts meet me. He seems to
me to take for granted that there
is no supernat. knowl. and
forgetting of events - the descrip.
of an event is proof of the Latin
origin of the document; but
is not that one of the points in q^{re}.
The study in this direction that
is usual is unworthy of the
name.

Haviland was to send his two

little girls - the one to be sent

Wson. Aug 27. 1851.

This day Mr Griffin, J. Lamm, Miss Cooper, Mr Sturthers, Mr Dyer and Mr McPheters dined with us - Soup, boiled turkey, roast beef & Pumpkin pie - fruit. Went to Parlor with ladies. Mr Dyer and Mr Ph. left soon after. Mr Campbell came in, and after tea all left.

Last Ev'g Mr Moresby, Wright, Bateman, Howard and Mrs Micks were with us - all very pleas^d. Mr Wright borrow 'Gupper'.

On Monday I placed a fire of coals in a room to dry it, rather a stony fire too, on the brick floor. At 10 tho' smell of scorched wood, but did not notice. At 3 a.m. I awoke with the smell of smoke - went to the

room - full of smoke, coming up
the floor - dress'd &c, went to St.
cal's Sereno, who app'd asleep -
hast back took up bricks &
cast in pails of water. How many
come with my axe, but at the
door where smoke issued, in the
wrong place! The first opⁿ was the
place. After awhile Cabo came,
and he gave the alarm; 8 minutes
after discord. Many persons began
to arrive, and worked hard. The
fire was soon subdued - and we
gave of thanks to God, for friends &
for success.

I censured myself greatly for
this affair, by wh I had expos^d
not only my own but others
property. The little pump on the
premises did good service - and

landed the house. The females be-
haved with marked propriety and
energy. Dr. Nye was collected
and collecting her valuables -
diamonds etc.

Mr Richard asked for a Bible,
I supplied him; tonight a young
man in Long's stone came for an-
other like it.

Mr Sturges likes his room
better than that just off him, he,
of course is in it.

Yrsk. Jan and I call on two
Mrs. Livingstones. They seemed
very glad to see us - surrounded
by 4 or 5 of them.

On Monday call at Mrs
Gromonts,
Gregorys - sad words about her
son James - Gay and unstable.
We kneel in prayer for him & his bro.

Today bot stones of L. B. Gomer
to the Am^y of 58 dolls!

Yest. Jno. Samman came in
I told him we had that about a
room for him, but saw not how to
give him one if scholars came.

I feel afraid of John's habits &
that after a little it w^d not be agree-
able to him, nor to us, to have him
a member of the family.

Thursday. Aug. 28. 1851.

Mr Hamland call^d with Charlotte,
Mrs & Aug. Wth - will send little girls
Soon after 18th.

Mr Lase came to enquire terms
studis etc, at placing 3 here;
did not decide.

Mr Monesth & not come to
prayer meeting, Mr Wright,

Mr Grey and Mr Parry came,
they remain to tea with us and
seem very gentlemanly young
men - John was tired, but
still we were pleas'd with them. On
Monday they sail, but I told them
we sh^d be glad to see them on
their return.

Mr Blake appears more inclin-
-ed. Kenneth came to night again.
Mr Walker absent. So Harper
and Simpson - much work.

M'Gyong having rec'd a box of

Friday. Aug. 29. 1851.

Yr. Maria (M^r) left us.

Mr Atwater 2^d and sent 2
little girls on Monday.

Mr Brown came today, to
say that he had sent 2 more.

Do not feel that I have
this day effected much; a
few pages on a sermon towards
night.

Mrs Rogers went out a 3^d
with Ellen, to buy a bonnet —
she & not ret^d, I walked down
beyond the Plaza, & not see them.

But I saw Ellen in at tanning of
Miss Douglas — came back home,
wife with me to bring her at
once. Did so. Mrs R. appear
usual, & she was just coming.
I brot the child home, who

3^d she had been there an hour.

Soon Mrs R. came. Jane spoke with her alone. She did not see she had done wrong - 'w^d say so on her knees before God - had had her feelings hurt enough, and w^d go away at once, never to sleep' in the street. She^d then had taken a glass of wine. I fancy she had erred in that way. It is lamentable, for she is a capable and a fair spoken woman. She^d she had not been in the house of Douglass more than 7 minutes; and as Jane told her of my seeing the child and coming home, she^d she w^d not "stickle about a minute." I fear it is only another case of misplaced confidence. Must to singing meeting - no

one but Mr Gregory and Mason.
I fear Mr Walker will prove
no great helper.

5 children in all. To meet at
9 1/2 a.m. on Sabl. morning - to seek

see Dick - absent an hour on two
she not saying that a Mr Phillips had told
her Bay was dead so that she did not go up
to Hospital. Afterwds she sd she did
not bel. it. Jam & I sd think you
w'd have gone up then. 'Yes' she sd
'you w'd think so, or someth' like it.
Jam that she perceiv'd spirits;
she acted strangely.

ing Service. I was beginning the
sermon when an alarm officer was
given - hesitated what to do - some
went out, I went on, they came
back soon. Jan says, 'better to
have stopt until I know where
it was.' She is right.

131 'Strengthen thy's that remain'
from Mrs. Good attention,
after alarm subsided.

Mc Thetus stopt us and told
how he had been invited to ride
out to day by a lady, and to
night to go with gentlemen to
opera - and had arg'd on them
the oblig. of doing otherwise;
that he meant to hold on
in Obs. of Sable. He put
it on the political foot
too much. He says Mr. Qu

Duer knows little or nothing
ab^t relig. and is sick on
Sunday when he urges him
to attend church.

Mr Parry, Grey, and Wright
bade us good bye, going to
Central Am^a.

Came home Mrs R had
gone to ask again about
Dick - she ret^d - I smelt
spirits - she began to talk
with Ellen, till Jane call'd for
silence. It will be nec. to
make a change at once.

To day troops out, 3 branches,
cannon fired, probably Pro-
clamation of Month.

I have not felt as much
to do as of ten, but wish my work
might effect good.

Stenthus spoke of the traditions
and nations of Orlyge as a
proof of truth of records. Mrs
Rogus, & some of the ab^l & Au. mag.
and he say^d what I thought of the
evil spirits in our Lord's time. I
said the act of thus speaking to Jesus
was indicative of its not being lun-
acy or epilepsy.

After ret^g in his young man call^d
with notes of Mrs Samman, 'very sick',
'palp. of heart', wish very much to
see me. I went at once to see
him - threat with paralysis - Dr
Kid came, & time, he & paralysis,
bled him, stomach rejected the med-
icine (Crot. Oil) and nec. to give

injections". Jno was agitated.

Reid s^d to me, had often warned him that this w^d come in the end - two years ago when Candid had partial paralysis - 'w^d get along now, if I open bowels'.

I went again to see him at 9 $\frac{1}{2}$ p.m., assist him.

Mon. Sep. 8. 1857.

D^r Reid came to say 'last night, changed to Del. Tremors - violent - better so far as life is concerned - but sh^d go to hospital, he w^d take him down himself to Cox's'. I said, 'is that better than up the hill', he said 'yes'.

Went down and helped dress him - packed up his shirts &c. Took his Bible - They gave me

his cash 202. to keep.

Reid went down with him
Abt 10 a. m.

Saw Page afterwards at his
Hospital - was in his carriage
turn back and took me
up - pleas'd to show me the
place. I spoke of L's case -
he said Reid had told him
on Sund. of it as a case of
Paralysis; but he tho't per-
haps it w'd prove Del. Trem.
- as it had; that the treat-
ment was illjng - but that
Cox w'd know how to act

Page show'd me a copy
of the request to Consul
to Charge Hospital - Chief
reason was that he had
so large a practice and

was so rich - wish^d it given
to D. Monan.

Geo. Lauman had signed it.

Tuesd. Sep. 9. 1851.

Went to see Lauman - saying

with feeling and sorrow abse,

man - 'going to Church' - asks
that I w^d pray for him.

I told him I valued his
good qualitis - he replied he
hoped he had some. Said he
wish^d to say more to me at
some time. He s^d "that was". I
rather honest here.

Have written Mr Hantland
and Leese that the times are
as forming.

Man who sold Mr Hantly
abroad came with friends,
who broke lamp shade - call
to see me - I told him I ought
not to hear the case, but to
return him I'd a part
of it.

Lord's Day. Sep. 14. 1851

preach without Mrs. A. Ward & wife,

None charged to 3 p. m.

Reads 'Hengstenberg' in p. m., on
Hist. of Christol. of old T. and
on method of proph. Commu-
nication - he says we are in an
"erotic, ~~but~~ consciousness susp.,
internal sense action alone - pass
by them in representation - things
seen in space not in time. He did
use many influences from this, but
I do not see the thing proved; he
adduces as proof when men
call the prophets 'mad'. Again

if they were this 'ΕΝΟΤΑΣΙΟ, and
such suspension, how was the
vision written? was it afterwards
from memory?

Eg. No 140. 'Strong in the Lord.

Read - good attention.

they refused to come.

Back of steamer - wrote
some letters. Have written no

into the repetition of certain
trains of thought - points of moral
philos. on the val. of confid.
in God. I strain from handling
pts of inspiration, biblical
pts, the O.T., the Canon etc.

It is less easy to write a
disc. than it was formerly -
less easy to select a subject
I mean.

Visited Rich^d Hume, scotch,
asked to pray bec. has not

perceptions of doctrine, and of
my explanations.

Mr Golofinich call asking me

is near death.

I went down at once.
Suff's 5th pain - inflamed bowels -
I an Eng. man, Cath, had been
with him just, but c^d not agree
with him - stated in simplest
terms the Gospel, s^d he had tried to
pray to God in secret. List^d to
my words attentively. Told him
I was sorry for his sins and resolv^d
not to sin he might cast 2ⁿ
on 10th and he said go to 12th.
I pray^d with him, tenderly
as poss., he evidently felt it
all. Thank^d me for coming
s^d I had done him g^t good -
wish^d I w^d come to more if
possible.

Call^d on Mrs. Myman and

after on Mr. Wm. W. W.

Mr. Lammie came to tea
with us. He is getting well

one 19 oz, Oxb^{er}.

Tuesd. Oct 28. 1857.

No decisive news from
the South yet - the rumor
says there is something favorable.

Went to Liech. Verder with
Mr. Campbell - cold.

Ret^d home - Isidoro came in &
told me of a revolt here in the town.
Granted No. 2 tapew, arms distrib^d.
I was distressed to hear it. He P^rpa,
Dios, asi se mata la jente, no Señor.

Soon cries were heard in the St.
Viva Cruz! ragged looking persons
pass. In a few moments reports
of musketry were heard, and then of
guns. Each shot was terrific. I
could not eat dinner, none of us could.
The shots grew fewer and more distant.
Soon persons told us from below
the author: were gaining. I kept close
within doors. The fight lasted $\frac{1}{2}$ hour -
betw. the Cust. House and Plaza Nueva.
in lower street.

Many were shot dead, many wounded.
Blanco led the troops into the fight - the
officers were brave. Great anxiety
last all night. French, Am. and
Brit. Marines were ashore at
the Mole ready to aid the authorities.
The mob were of the worst class &
we have pillaged the city - probably.

Watchman call on us to put a
light out in front - did so.

Shots heard all night occas.^l
Attacks were made of the jail and
the Plaza Victoria.

This day Capt. Thornton of London
came to see me for Mr. J. Conversⁿ
He ask'd if he might, some weeks
ago. Had been under Con-
viction at Guayaquil river, and
came in here in happy state of
mind - had taken arms here
etc. and had lost all hopes.

I read 51st Psa. - he familiar
with it - pray with him - read on
his knees pleading for pardon. I
told him he had no need to make
God willing to forgive him, and that
he sh^d go on board and try to quiet
his mind wh^{ch} seemed greatly agitated

Mon. Oct. 29. 1851.

Buss. all suspended this day, and
fear felt of a new disturbance -
all manner of reports - 400 men
in the hills coming down to night.
Proper Guard and Military out-
placements to stand with blood

Mrs Whelan and Augusta
went on board - ill feeling toward
Admiral In having taken the
Arango.

Mrs walked out to Mrs Campbell's -
Mr S. and I went to bathe, high
wind.

Thursd. Oct. 30. 1851.

Capt. Thornton came again, in distress wh show'd in every sign, and yet somethg apptg for effort in his manner. off prayer with him again. He pray'd to Sweet Jesus

After dinner he came again saying there was no hope for him - I ask why? "I feel it in my hands here, somethg going round and round", pointing to his palms. I now felt sure it was of the nature of Del. Tremors and told him so, he w^d not hear to that. : own he had been drinking until 4 or 5 days ago - In the morning a weight had fallen on his shoulders wh was his seat rest on him - not slept night before - doted on Cochrane &

waked thinking 's'-dog had hold on
both his hands. Urged him to
see a Physician or else go to bed
and take 50 drops of Laudanum.

Wed. Dec. 31. 1857.

Capt Thornton came in saying
"Grace has finish" what Grace began -
had found quiet last N^o and at 10
went to bed & slept soundly.

He s^d he w^d tell me his history for 8
mos. and began at Yagayaguil - had
been drinking beer when got down
river - saw his dead Son, the men
s^d it was the cat - heard men say they
w^d steal the boat wh they arrived -
saw his mother in his cabin con
with most brilliant nail - saw
deck open and heav. sights - a
hand come thro bulkhead - and then

hosts of perdition. "Saw them all
- no delusion". I told him it
was no use to take up my time
with such things - they were disease
from indulgence. He went away.

Thurs. Nov. 18. 1851.

Capt. Thornton sail'd on 15th.
Never came near me again. Enq^d
about him - sick - in hospital
- so my suspicion was right,
tho whether there was any sp^l con-
viction of sin as I hoped is
more doubtful.

Tra with Mr Campbell.

Don Diego compl^y of Mrs

vagance & the comp. she keeps,

Mr Struthers told me yesterday he
regard it a privilege to live in my
family - that he was very comfort-
able indeed.

McPhetters sent home my
saddle with cuts in the seat of
it - I'd not a word - two weeks
later I spoke of it; 'w'd see it', 'Dula-
my did it'. 'At later day says he will
take it, 'send it round to Kie' - Dulaney
not caring at all about it. Mr Stru-
thers asks, 'why does he not send for
it?'. He does not prompt the man
& I'd desire. A member of the Ch.
but he does not show his co-
-lors; this saddle matter is
& not noble; Samuel tells me
of his borrowing horses to 'try'
them and riding to Vinardel Man
- all together. I fear he is not
sound.

Thursday. Nov. 20. 1851

A man Geo. McCann has just died at hosp^l. Mourned that he had attend^d to the Sc. so little - I spoke and pray^d with him. Did not see him for 3 or 4 days again - in wh I censure myself.

This day went to see Hume; on way Dr. Page told me he w^d not last long.

I told him so - did not know it - I^d I, Did you think you w^d get well? He replied 'yes'. He inq^d if I had seen the Dr. and what he had said. I ans^d that he was very low. The sweat cover^d his face. I helped him lift his leg and fanned him - for wh very grateful. Read verses

of Ac. to him select^d him
and there. Pray^d with him. Bore
him farewell with very tender
feelings - telling hop^d to meet
him in Heaven. He thank^d me
with much feeling.

referring to Hume and his doubts I

Evg. Isa. 5.12 Regarding operations of the Lord with us.

Mrs. Lawman did not come to the house all day - went to his room, not in.

Mon. Dec. 1. 1857

Br. Captains, of the Tropic. came in and asked to close the door. Saying let us pray, he knelt down, appealing to God that in coming to his minister's house he only wish to inform me of events soon to come to pass. He prayed for me, my wife, children, servants, and all connected with

me. Then he asked for the Bible and began reading Rev. 18. 1-11, where he said 'that will do', with this in addition reading 18-20. I resumed. He said again 'let us pray', and in few words to God stated that he had come to warn his minister, and praying for me if I remained at my post of duty in the coming trouble. Ending this he said 'good bye', but I said 'what does this mean?'

But haven't I told you?

What have you told me, what is it?

Why, that this city is to be destroyed

But how do you know?

Haven't I just read it from the word of God? No, O I, that is about Babylon and this is Vesp^o.

Yes, but spiritually it is this place -

I am an ignorant man and not

long in grace, but I have tried
to do my duty in telling you what is
to happen.

Wm. S. I, sit down and didn't talk
with you and perhaps assist you some.
But he S^d he had not time that he
must go away, 4 persons were waiting
for him. He had been up in these
mountains reading Revelation and knew
this city was to be destroyed.

Tuesd. Dec. 2. 1851.

Wrote a note to Mr Dyer de-
clining his invitation to dine at the
Union Hotel on 3rd.

Mr Ruprecht wishes me to study
German, and offers to teach me -
thinks I might benefit Germans here.
Conversing with him about Baptism
of infants, he thinks they sh^d be

baptized even if parents are not
Christians - prayer of Sen. Min. for
child will not be in vain, and it
exerts some infl. on the parents. &
the infl. is augmented if the parents
were told that their child's want of fidelity
his child was not baptized.

Mr. Lammie came yest. saying
had suff. from Rheumatism. He is

Since my last entry news of battle at Longomilla^{8th}, decisive victory over Cuera at first, since that a period of no news has intervened until the 15th, when it was stated that his army had passed over for the most part to Batnes since a defeat. But in Concepcion a victory was celebrated, as well as here.

fred Wolfe, Cockburn, Lings, Scott,

After reading 2^d Psal, expt^d in Biblio-

take it up and write on it as
candidly as I can.

an earthquake of same force &
long duration — I call^d to the
peop. to be quit and not go out.

Thus began again, and had gone
about a minute when Mrs
Waltham gave signs of fainting
or fit - this new interruption
stopt me altogether for a time, but
she reviving I went on to the
end. Mr Duncan came in &
took a cup of tea with us, &
he was afraid he sh^d have to go to the
Cafe for his tea.

Mon. Jan. 19. 1851.

During the night Emma had slight
premonitions of pain - occurring
at intervals. On rising this morning
they decreased rather. I called for
Mrs Campbell, who had off to be
with her; she came after breakfast and
remained all day. At 10 a.m. went to see
the Dr, but telling him was no haste.
He came in a.m. - spoke kindly to me
telling her to have courage.

She says to me she finds great aid in
enduring pain in view of what she
looks forward to. Complains of tension
in head - D^r speaks of bleeding possibly.
But after warm bath head better.

Restless and feeling want of sleep.
D^r tells her she has severe pain
yet to bear.

10 p.m. D^r has been in again &

told me when he is going to call
on he returns here again.

Fannie has just come again, but
this is only preparatory labor.

D^r told Mrs C. he thought she would be deliv^d
to night - Chase says day after to-mor.
and refers to the end of the moon.

Perhaps I do not realize the
suff^y of my dear companion - na
the peril there is for her. O I w^d look
to the Lord and hope in the guidance of
his superior judgment: may he bear
her thro in all that is before her;
and, if he bear her child & it live,
may it live before him and serve
him. I think this is my greatest
anxiety that it be a child growing
up in holy principles - not to
harm but to benefit men, not
to disobey but to love God.

The D- slept in the house, but was not call on. Jeannie had pains recurring the night thro - but they are to be the beginning only.

At 5 $\frac{3}{4}$ I went to bathe. Nurse had D's child & he born 3 $\frac{7}{8}$ o'clock. I went up. 8 and set at noon. Mrs Ralph came in and advised her to get up - she did so and sat a hour or two - when the pains came asked nurse to press on her back, when she was ask asked me. Dear girl, every little while forgetting herself and regretting that it was so distressed for her. She says, I'm sorry you've got such a noisy wife, but I can't help it. I must cry out. The D tells me it will be harder yet. He is very attentive.

At 4 p.m. I was sent up hill
for him - & he was glad to see me
coming - he came down at once,
but the pains were not enough.
I did not see him ~~see~~ he went,
and he dined at also's, and
sent word he was there.

Toward evening I began to feel
more anxious at the delay, and
to fear there was some obstruction,
but Mrs Campbell & Dr had told
her all promised well. He afterwards
told me that the head presented itself
and that all was favorable. The
pains were strong and frequent
scream under them, but Dr J^r it was
the result of healthy action.

I am indulged here even in moments
of pain in an occasional remark
rather philosophical in its way - as

when once crying out loudly, she
stopped to say, she had always thought it
foolish in people to scream for
pain. Also when the Dr spoke of the
pain as not remarkable, and
that he had had experience of it
in many cases, she said his expec-
was easily compared with that of his
patients. Betw. paroxysms she
smiled very sweetly. She thought she was
'used up'

At 11 1/2 p.m. Dr said child w'd be
born after all on the 20th, so I
supposed it w'd soon be this. Dr
wifz suff'd now severely. I never
had any idea of the thing before.
Presently the Dr said the head was
born, but no sound was heard.
A few minutes elapsed and the
little stranger cried out. I did not

~~felt~~ 'feel' so much as I had expected to on hearing it, but was delighted that the wife of my love was relieved.

Mr Ralph held him in a blanket at, and the nurse sent me for warm water - she washed him. The mother seemed exhausted.

D^r soon had the placenta ready for carrying away - this I did.

The little boy was now dressed - D^r took a cigar & so did I with him, while nurse was taking care of him.

He was born 10 minutes before 12 on this day Tuesday July 20th 1852.

D^r and Mrs Ralph went away abt one - I turned in soon.

The conduct of Mrs Campbell
and Mrs Ralph was like that
of sisters - I felt under great
obligations to each of them.
They afforded her great relief.

And the Dr too much & not
he said in his praise - Cheerful-
ness, kindness, skill, patience
and care all mark his practice
And all the time I know he
did not mean to let me go home

Mon. Morning July 21. '52

Frederic is doing remarkably well

the baby does not know how
to take it yet. Nurse says Fred

take it when 10 days old. Mrs. is
inclined to give him nothing else
now.

Have been invited several days to
the dinner to Mr. G. W. W. W.,
but hesitating much at going.
Decided at length not to go &
carried back the invitation;
but Mr. H. Ward met me af-
terwards and said he was glad I
was coming & would be welcome

guests. I told him what I had
thought and done - but we go and
take it back - He assumed
it was to be a quiet respectable
affair, set toasts etc. So I
concluded to go. Mr J. T. M. came
also and I had better go.

I did so and was glad I did.
Bowie sat near me and was more
capable of conversation than I
had supposed. All was very pleas^t.

I dared to offer a toast at one
end of the tables, & did so, but
lost complete that I ought to
have done. I said *Prindo al*
Espiritu comercial, por lo que
se activa el movimiento (de
la raza humana) se esparra-
man las luces, y se hace
robusta la libertad - those around

look'd as if they expect more
from me, but I was speaking in
a far. language and fear to at-
tempt, this being all I had meant
to say when I rose - I repeat
vuelto al Consejo Comicial;
and they draw to it. For think
I saw what I sh^d have said
more in 'Esp. Com. tan digna-

the diff. he named was in the object

bates what to do with, what will
he do if he exercises faith in Christ.

years I have not written 100 sermons -

But for two years of labor, I have not
written on an average one a fortnight.

Whereas from the time of my arrival
in Chile in '48 to going away in '49 I
wrote 276, 74 sermons, 1 1/2 times, and

I can write better now than I did
then, but am less inclined to let about it,
tho' when a beginning is made it is easy to
write.

I mean to try to do more.
